# SETTING UP A USA BASED EXCHANGE

-Need to be able to KYC (know your customer) this means you will need to be able to provide an id and take and send a picture of it.

-Need to connect a checking account or debit card, higher limits with direct connect of a bank account

-Will allow you to on-ramp cash into crypto and off-ramp crypto into cash and into your bank

-Will help with any tax paperwork at the end of the year

# GET A VPN WE RECOMMEND PROTON

## PROTON VPN

Get Proton VPN from our resources tab on Crypto Project Watch website. You will get a discount.

## NEEDED FOR AURUM

You will need the VPN for Aurum and many other crypto projects and exchanges requier a VPN

## SECURITY FROM VPN

Having a VPN provides an extra layer of security for all of your online activities. However turn it off before trying to do online banking with a US based bank.

# USE AN UPDATED DEVICE

Your phone or tablet needs to be updated to the latest firmware. Many sites, apps, and the VPN will not work without the updates for security

If you want to use the Aurum Credit Card you must have a phone with NFC capabilities

Having all your accounts set up on a cell phone will help you be able to copy and paste addresses from wallet to wallet as well as have full access to authenticator codes
